Tabula Sapiens

Human transcriptome reference at single-cell resolution

Tabula Sapiens

Human transcriptome reference at single-cell resolution

About

Tabula Sapiens is a benchmark, first-draft human cell atlas of over 1.5M cells from 28 organs of 24 normal human subjects. The data portal comprises both Tabula Sapiens publications (Tabula Sapiens v1.0.0, 2020 and Tabula Sapiens v2.0.0, 2024). This work is the product of the [Tabula Sapiens Consortium](#). Special thanks to the Chan Zuckerberg Initiative for funding this project and to the Cell Science Technology team for creating Chan Zuckerberg Cell by Cell (C2C) and C2Cv2, the tool that makes the visualization of this research possible.
